Dear Judge,

I am a college student. I don't know all of the facts on PFJ, or on the history of Microsoft, however I have studied antitrust laws and I do see the positive effects of competition every day. Microsoft may have earned its way to the top of its competition, however, if it is given an effective monopoly, it will cause the same types of problems that caused the antitrust laws to be passed in the first place. I believe the antitrust laws are there for good reason, and should be heeded.

Thank You,
